# **Education: Pig Style**

by Carole Soule, Miles Smith Farm

Charlotte, our Miles Smith Farm "rescue" pig was pregnant for exactly three months, three weeks, three days after her AI (artificial insemination) date with Majestic Martin, a Big Black Boar.

She gave birth to seven piglets right on schedule—almost to the hour. The piglets were all born healthy but my biggest fear was that, given the difference in size between Charlotte (600 lbs.) and the piglets (5 lbs.) she would accidentally "squish" one or more.

So the night they were born we set up a flimsy wooden barrier to try to keep her from rolling or stepping on her babies. I set up a cot in the adjoining stall and from about midnight to 3 a.m. all was well. Char-

# **Loudon Church News**

# **Loudon Center Freewill Baptist Church**

We are pleased to announce that our updated FaceBook page is ready. Won't you please check it out and "Like" us. It would be very much appreciated.

Hard to believe it's already August but it is and the church is busy planning its fall activities.

Sunday, September 14th, 12 noon–3:00 p.m. please join us for our 235th birth-day celebration. Refreshments will be served and music will be provided by The Middle River Gospel Group (they performed at our Gospelfest last year); Don Smith, country gospel singer from Epsom; violinist Amanda Stickney from Pittsfield, and Patti and Beth Noyes of Athens, VT. If you'd like additional information, please call 435-6510. Thank you and we look forward to seeing you at this joyous occasion.

Saturday, September 20th, 6:00 p.m. — the church will begin the new season of potluck Fellowship Suppers. The supper is followed at 7:00 p.m. by either a concert or a hymn sing. Look for details on this in the September Ledger. The supper is free but, if there is a concert, a love offering will be taken for the performer(s). So won't you please stop over and plan to have an enjoyable evening with us. FYI, if you'd like to mark your calendars, the suppers are usually held the third Saturday of each month starting in September and going thru June. If you'd like more information about the suppers, please call 435-6510. Thank you.

The church will also be holding its annual Craft Fair and Bake Sale on Saturday, October 25th from 8:00 a.m.—2:00 p.m. Vendor tables, \$10 each, may be reserved by contacting Lorraine Welch at 435-6510 or Gayle Doyle at 435-0496. A chili/hot dog lunch will also be served that day for a minimal fee.

Everyone is invited to join us on Sundays at 9:30 a.m. as we gather together to worship the Lord. ■

# **Change in Office Hours**

As of August 1, 2014 our new hours will be as follows:

Monday-Thursday, 10 a.m.- 1:00 p.m. and 3:00 p.m.-6:00 p.m.

The two-hour gap during the day will allow us to stay open a little later, give us time to restock the shelves, pickup donations when needed, and maybe even eat lunch.

# **Donations Needed**

During the month of June, we gave out enough food to create 3,774 meals. We are happy to say that some of our patrons (households) found jobs and some starting making too much money and no longer qualified to receive food. And some households have also moved out of our service area. But no matter how many households leave, there are always more signing up. During the first half of this year, we had 25 new households sign up for services.

We need food to help feed all our households and funds for operating expenses and to purchase basic foods that are not donated. The New Hampshire Food Bank is our core supplier of the frozen meat we hand out every two weeks (at 19 cents per pound). They do not always have frozen meat in stock. If you have frozen meat, game meat (must be processed by a professional) or fresh meat we can freeze, please donate it. It would save us the cost of purchasing it and the trip down to Manchester to pick it up.

Farmer and home growers: if you have fruits and vegetables that will not sell, or extra on hand, please drop it off. Fresh is always healthier than canned.

Items needed now are juice, mashed potatoes, canned or fresh fruit, spaghetti sauce, tomato sauce, chicken noodle soup, tomato soup, baked beans, side dishes, tomato products, peanut butter, jelly, jam, canned or fresh vegetables, canned or fresh meat, cereal, and toilet paper.

You can donate by going to LoudonFoodPantry.org or visit Loudon Food Pantry, 30 Chichester Rd., Unit D, Loudon, NH. Please call 603-724-9731 if you need to arrange a pickup.

Thank you everyone for your continued support.

**Piglets** — cont. from 1

lotte slept and periodically "sang" in a series of grunts to her babies. She lay still as they climbed all around her and nursed.

At about 3 p.m. she got up. Afraid that she would knock over the boards, I started grabbing the babies and threw them in a bucket. That is when chaos erupted. A mother pig goes semi insane at the sound of squealing piglets and these babies were squealing a storm. I got five of them in the bucket when Charlotte charged the bucket. I pulled the bucket into the adjoining stall, leaving one baby in with Charlotte. I didn't realize then that there were actually two piglets still with Charlotte, one was unseen, covered with hay. She must have stepped on him, because he was now dead.

Once I moved the loose boards out of the way and left one board against the wall for the piglets to "hide" under, I put the four in the bucket under the board. This distracted Charlotte and gave me an opening to grab the dead and live piglet, toss the live squealing piglet with the others and make my get-away out of Charlotte's pen. She stood in her pen, I'm sure scolding me with loud grunts, snapping her mouth. It was then I realized that a less friendly pig could have killed me for all this fussing. Shaken as I was, I shut the gates and walked to house and my own bed.

Charlotte, in her pig way, let me know to leave her alone. She wanted to manage on her own and I heard her loud and clear. Two days later I found another squished piglet — an accident of piglet rearing. As disappointed as I was, I still had to respect Charlotte's choice to raise her piglets without human help. The remaining five babies seem to have figured out how to use the board to "hide" from Mama and are still with us three days later. I guess, as with children, we give them the best tools we have but sometimes we just have to stand back and watch, without interfering...unless they ask.

You are welcome to visit Charlotte and her little piggies at Miles Smith Farm, www.milessmithfarm.com and on Facebook (603) 783 5159. ■

We were able to serve out four huge tubs of ice cream before a close strike cancelled the fun. Every Wednesday night in August we have Community Summer Fun Nights. From 6–7 p.m. people start coming down to the Recreation Field in the village for pickup basketball, Frisbee, tennis or other fresh air exercise and fun. Then from 7–8 p.m. we have an event. These events are all free and all

Loudon residents are welcome. People bring their lawn chairs or blankets and just come on down to enjoy the company of friends and neighbors or to meet new people. Hope to see you there. By Shawn Jones, Commander

Greetings Legionnaires,

Our July meeting was held on July 16th with 13 members present.

At the 96th Annual Convention of the American Legion our newest Department Commander Robert "Bob" Dionne was elected. Three of last year's Vice Commanders where reelected and new Vice Commander Thomas Willey was elected. The four proposed amendments to the constitution where voted down including one that would have changed the number of Vice Commanders from four to two.

Your post was awarded the Intra-District Membership Award for having the greatest percentage of membership enrolled by May 1st compared to Department quota. Eight plaques are award to each of the eight districts. What this means is that we were the top post in District Five. Congratulations for achieving this level of membership success!

By now some of you have started to receive your 2015 renewal notices. Please do what you can to mail in your dues payment before December 17th so that Joe can get them to Department by the 31st. Renewing now will assure that you don't forget around the holidays and you may help us to achieve 100% by January 1, 2015.

Ten deserving students seeking a career in health care received scholarships through the Concord Hospital Trust Scholarship Fund at an awards luncheon at Concord Hospital on Friday, June 27, 2014.

The following recipients received nursing scholarships: Nicholas Angelone, Katlyn Dasey, Aspen Dubuque, Brittany Fisher, Susan Storey, Dominique Vaillancourt, Kimberly Wright, Ashley Godbout, and SandrineNdetah. In addition, one allied health award was given to: Meghan Casey.

The Concord Hospital Trust Scholarship Fund, part of the Trust's endowment, provided \$32,974 in scholarship support. The Fund comprises a number of scholarships originally established to support the Concord Hospital School of Nursing, which closed in 1989. The Concord Hospital Trust Scholarship Fund reflects the goals and intentions of the original School of Nursing donors. These donors sought to inspire and enable students to pursue careers in the nursing and allied healthcare professions to enrich their lives, while ensuring the continued availability of quality health care to the Greater Concord community.

The Concord Hospital Trust Scholarship Committee, a volunteer sub-committee of the Trust's Stewardship Committee and led by Chair Harriet Resnicoff, received 45 applications. The applications were reviewed according in a "blind" process; the Committee Members did not see the names of the applicants until the final weight was determined after reviewing all of the eligibility guidelines.

"It was truly gratifying to award these scholarships," said Pamela Puleo, Concord Hospital Trust executive director. "The luncheon represented a culmination of great work by the Scholarship Committee. We were so pleased to be able to fulfill the intentions of our original scholarship fund donors."

# **Between the Covers: Summer Reading**

By Kate Dockham

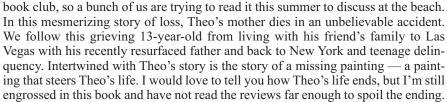

August. The dog days of summer. Time for a vacation book. In my mind, a vacation book should interesting, entertaining, and mindless. Vacation, whether exotic or backyard, should be a time for escape. And the right book can help one escape. Unfortunately for me, my bedside table is full of have-to-reads.

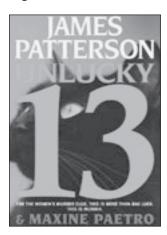

First, I need to reread Unbroken, by Laura Hillenbrand. I had read and written about this book earlier this year, but my book group will be discussing it this summer so I need to refresh my memory. Louis Zamperini, the hero of the factual book, recently passed away, but the story of this amazing man will live on in these pages and in a soon-to-be-released movie directed by Angelina Jolie. Zamperini survived 47 days in the shark infested Pacific after his plane was shot down in World War II. He was then "rescued" by the Japanese and taken to a prison camp. He was imprisoned there until the camp was liberated in 1945 and was haunted by his memories upon returning stateside. Still, Zamperini's story of survival is one that you will keep with you always.

The second book on my nightstand is my summer reading book for school, *Strike Three You're Dead* by Josh Berk. This middle school book is a mixture of baseball and murder mystery and is the third book following Lenny and his two friends Mike and Other Mike. In this entry, the Lenny enters a contest to announce a game for the Phillies. The night of his big opportunity, a player drops dead on the field. This is an easy to follow plot, yet the characters are engaging and sports fans will enjoy the humor.

Book three in my bedside pile is *The Goldfinch: A Novel*, by Donna Tartt. This is not technically a have-to-read, but there has been a lot of buzz about this Pulitzer Prize winning book. At 775 pages, it is too much to read in the monthly time frame for my

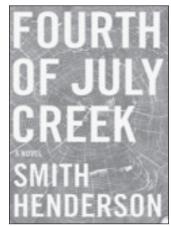

I do have one book on my nightstand that would fit into the "summer read" category for me, James Patterson's Unlucky 13. This is the thirteenth installment of Patterson's Women's Murder Club Series. In these books, Detective Lindsay Boxer and her friends: Cindy Thomas intrepid reporter, Claire Washburn medical examiner and Yuki Castellano district attorney, work together to solve crimes. In this installment, Lindsay returns to work at the San Francisco homicide department after having her first child. Everything is humming along until a young couple is found dead in their Jeep blown up from the inside out. Working with the FBI, Lindsay and the girls try and solve this crime before the public panics. Meanwhile, the girlfriend of a murderer blames Lindsay for the death of her lover and sets out on a

dangerous mission to kill Det. Boxer. Oh yeah, Yuki is on a honeymoon cruise to Alsaka taken over by terrorists. There is a lot going on in this book and many critics say Patterson is less worried with quality than with publishing as any books as possible as quickly as possible. That may be, but I've grown to know these women and their escapades are quick moving, engaging and not too heavy — kind of like a summer blockbuster movie.

So I have perused the summer reading lists of news shows, magazines, newspapers, and websites to find some other reading for vacation. The following are books mentioned the most often on these various lists. Most often noted was *We Were Liars* by E. Lockhart. Considered a young adult book, *We Were Liars* follows the Sinclair family to their private island off the coast of Cape Cod. The island, lorded over by the grandfather of the clan, becomes the summer home for his three grown daughters and their families. Cousins Cadence, Johnny, and Mirren join their friend

Gat year after year in summer exploits. When Cadence is 15 she suffers a mysterious accident and this book chronicles the two years since, jumping from the past to the present and back. Cadence's memory is blurred by amnesia, migraines, and painkillers, and the story unfolds to the reader in the way that Cadence recalls it. This story touches on the issues of both class and race but focuses mostly on dysfunctional family drama and the romance between Cadence and Gat. No spoilers here, because the ending will stun you.

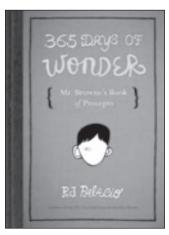

Also mentioned on summer reading lists quite often is Fourth of July Creek: A Novel, by Smith Henderson. This book may be a little dark for a summer read but the characters created by Henderson are incredibly rich. Pete Snow is a divorced social worker in the remote town of Tenmile, Montana. Here to hide from the fallout of his divorce and to work with the impoverished families in town, Pete is summoned to open a file on Benjamin Pearl. Raised by his paranoid survivalist father, Benjamin is feral-like and suffering from malnutrition. Pete slowly earns the trust of Benjamin's father, Jeremiah. At the same time, crisis hits Pete's own family with his own daughter vanishing and the FBI start a manhunt for Jeremiah. In this debut novel Henderson tenderly portrays hor-

rible family secrets and illuminates the possibility in even the most painful lives.

Phillip Marlowe returns in another summer book causing a lot of stir. This hard-boiled detective first created by Raymond Chandler and a constant in film noir is brought back to the pages in Benjamin Black's *The Black-Eyed Blonde*. Picking up where Chandler's series ended, this tightly written mystery begins with a leggy blonde telling half truths to Marlowe who falls for her story hook, line, and sinker. Marlowe is off looking for the woman's lover, Nico Peterson only to find his disappearance the first in many bewildering events. Before he knows it, Marlowe is tangling with one of Bay City's wealthiest families and begins to see how far they will go to protect their fortune. Written in classic noir and paying homage to Raymond Chandler, Black has written a novel that has the panache of the originals while still being as fresh as today's crime novels.

I'm going to leave you this month with a children's book. In an earlier column I wrote about Wonder by R.J. Palacio. It is an amazing book about acceptance, friendship, kindness, and triumph with an awful lot of adversity thrown in. Palacio has returned with 365 Days of Wonder: Mr. Brown's Book of Precepts. In the first book we met Mr. Brown, the English teacher with a set of precepts, or principles to live by. In this book, Mr. Brown has compiled 365 precepts drawn from popular songs, children's books, Egyptian tombs, fortune cookies, and more. His selections celebrate kindness, hopefulness, the goodness of human beings, the strength of people's hearts, and the power of their wills. Along with these precepts are letters and e-mails from the other characters of

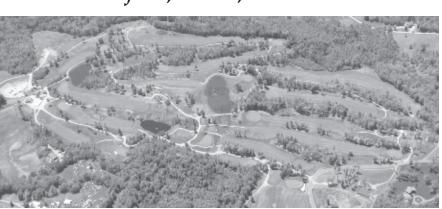

Wonder: Summer, Jack, Charlotte, Julian, and Amos are all heard from. This heartwarming companion book is a pick-up book that will lift anyone's spirit. Perhaps I will see you picking it up on the beach, until then — keep turning those pages. ■

# **Summer Soccer Camp Wonderful Experience... and Lots of Fun, Too!**

By Tammy Bourque, LYAA Soccer Coordinator

On Friday afternoon, the kids found it hard to believe camp was coming to an end. The week seem to fly by for all. The campers not only learned a lot of soccer skills from the English coaches, they learned about team play, sportsmanship and "REE-SPECT." And, if you can believe, the kids really seemed to enjoy getting "homework" assignments throughout the week! They were fun assignments though, such as, dressing whacky, bringing items to dress the coaches whacky, creating flags (smallest, biggest, most creative, and tastiest!), creating drink concoctions for the coaches to try and gathering supplies for the end of the week water fight.

Throughout the week, the kids took part in their own "World Cup" and "Champions League" tournaments. They played daily "matches" on the "pitches" in their "boots," leading up to the championship games at the end camp. And, just like in the real World Cup tournament, team "Germany" won Challenger's morning World Cup tournament. Team "League United" won the afternoon's Championship League.

Great job to all the kids for their hard work and great attitudes. It was really nice to hear many of the campers excited and wanting to come back next year! Maybe the turkeys that joined us every day will be back as well!

A huge "THANK YOU" to the Davis and Hornung families. Along with my own family, they opened their homes to complete strangers and hosted coaches for the week. These coaches may have started off as strangers, but by week's end, new friendships were formed.

"Thank you" to the parents as well for all your assistance this week and getting your kids back and forth. The camp could not have been a success without you. One more big "thank you" to Chuck from MVSD for fixing our water problem so the kids could have their water fight on Friday! Kids, keep getting touches on your new soccer balls and we'll see you on the fields this fall!

# **Be Bear Aware As You Enjoy The Summer Season**

s summer heats up, N.H. Fish and Game is urging homeowners, campers, and Athe rest of us to be bear aware. Early summer continues to represent a lean time for bears, according to Andy Timmins, Fish and Game bear biologist. June is considered a "transition period" between spring and summer foods. The succulent, emerging vegetation that bears fed on during spring has lowered in quality as a food source and the summer fruit crops are not yet ripe.

"This period of low food abundance causes bears to search out high-quality, readily available foods provided by humans, and is the main reason why the majority of bear complaints in New Hampshire occur during June and July," says Timmins. Additionally, this time period coincides with the peak tourist season and a time when a lot of residents and visitors are recreating outside in bear habitat. Campgrounds are full, restaurant dumpsters are overflowing, and human-related food attractants are highly abundant across the landscape.

Fish and Game urges individuals and businesses to remove any bear attractant from their property. Bears seek out the highest quality foods in their home range. When natural foods are low in quality (fat and protein), bears will seek out foods like birdseed, poultry grain, pet foods, and garbage which are higher in fat, protein and carbohydrates. Be proactive by removing birdfeeders during spring and summer, secure garbage and protect poultry and livestock with electric fence. Think about long-term solutions to common problems.

"Above all, the public must understand that it is illegal to intentionally feed bears in New Hampshire and you can be fined if caught," said Timmins. "Intentional feeding causes extreme problems and is highly detrimental to bears. This activity habituates bears, which may result in the bear having to be destroyed due to negative behavior. Once a bear becomes accustomed to human areas and foods, the behavior is nearly impossible to break. If you respect bears, keep them wild and don't tempt them with food."

This issue is a major concern for Timmins, who issued a heartfelt statement in May explaining that intentional feeding, and the public's unwillingness to be diligent with common food attractants, had created nuisance behaviors that caused Fish and Game to have to kill multiple mature bears this spring (see www.wildnh.com/Newsroom/2014/Q2/bear human conflicts ATimmins.html).

The bad news is that since that message went out, things have not improved that much. The number of bears shot by homeowners this year, mostly at unsecured chicken pens, is higher than ever. "Staff from the Department and USDA Wildlife Services has been busy addressing bear conflicts over the past several weeks. It is astonishing how many of these conflicts are the direct result of garbage, birdfeeders and chickens," said Timmins. "Intentional backyard feeding is not the only problem. People appear not to realize they are contributing to bear/human conflicts by having open or plastic-topped dumpsters, unsecured household garbage, bird feeders or unprotected poultry and livestock.'

Campers and hikers can avoid conflicts with bears by maintaining a clean campsite and storing food, garbage and aromatic items, like toothpaste and other toiletries, out of reach of bears (not in your tent!) If car camping, keep all food and coolers in a building or vehicle with the windows rolled up. If camping at a remote site, bring rope to properly hang these items, or use food canisters; the White Mountain National Forest Androscoggin Ranger District in Gorham has a limited number of bear-resistant food canisters available to borrow; visit www.fs.fed.us/r9/white.

You can help by following the Something's Bruin guidelines at www.wildnh.com/Wildlife/Somethings\_Bruin.htm. Talk to your friends and neighbors and encourage them to help prevent conflicts with bears.

Fish and Game recommends that people take the following action to reduce the chances of a bear visiting your home or campsite:

- Stop all bird feeding by April 1 or as soon as snow melts.
- Clean up any spilled birdseed and dispose of it in the trash.
- Secure all garbage in airtight containers inside a garage or adequate storage area, and put garbage out on the morning of pickup, not the night before.
- · Avoid putting meat or other food scraps in your compost pile.

## **Beware of Scam**

Whether through the mail, e-mail, phone calls or someone knocking on your door — *if it sounds too good to be true, it probably is.* The most recent scam we have been dealing with concerns elderly residents. A phone call is received about their "grandchild" (and the caller knows the grandchild's name, in most cases) being in an accident or under arrest. They will state they need money and give directions to go purchase particular credit cards at local stores or the bank and they will call back for the PIN number on the back. Please talk to your elderly parents and relatives regarding these scams and do not hesitate to call the police department if you receive one of these calls.

# **Lifeguard on Duty**

Jesse Mazzola is on duty as our lifeguard until Labor Day. He is on duty Wednesday through Sunday 10:00 a.m.–6:00 p.m. We remind you that it is swim at your own risk. We ask that you supervise your children. Many times we see young children dropped off with no adult supervision. Also, a resident sticker is required to use the beach. You may obtain one at the transfer station during regular business hours. No alcohol or dogs are allowed.

# **Things To Think About**

There is a town ordinance for curfew on any town owned property. No one is to be on town property between the hours of 10:30 p.m. and 5:00 a.m. nor is any alcohol allowed at any time.

Vacation time is here — remember to put a hold on your mail/newspapers or have a trusty neighbor or relative pick them up daily. We also recommend timers for lights in different areas of your home and to secure any vehicles left at the residence. Feel free to contact us to do extra checks of your residence while you are away.

**School will be back in session on August 26th!** Keep careful watch for the children that are out and about on our roadways.

The walkway to the Police station looks beautiful thanks again to Jon Huntington and Pleasant View Gardens!

Finally, I would like to thank the residents for their patience during the past race. The next NASCAR race is September 21. I would like to remind the residents that race traffic will become increasingly busy the week prior to the race itself. Please plan accordingly and remember road closures for the Nascar races will be on Sunday only. If you have any questions, please do not hesitate to contact me.

As always, if you have any comments or suggestions, please contact me week-days at 798-5521 or via e-mail at loudonpd@loudonpolice.com or chieffiske @loudonpolice.com. ■

# To Sell or To Rent: That Is the Question!

By Jack Prendiville Century 21 Thompson Real Estate

The reasons for selling a home are numerous as properties themselves. Some homeowners may decide to rent their properties instead of selling. Here are some pros and cons to consider when deciding to rent or sell your home and don't forget to consult a financial expert and tax advisor.

## **Rental Pros:**

- 1. Waiting game. In the case of a buyer's market, renting your home may buy you some time until you can sell your property for a better price.
- **2. Cash and equity.** Rental income may cover all of your ownership costs, and may even make you a monthly profit, while you are building equity.
- **3. Exemptions.** Talk to your tax advisor about whether you are eligible for tax breaks from your rental income and expenses related to home improvements.
- **4. Flexibility.** If you are reluctant to sell your home, renting it out allows you to retain ownership.

## **Rental Cons:**

- 1. Beck and call. You are the landlord. Be prepared to handle all of your renter's household questions and problems, no matter what time of day or night.
- **2. Bad renters.** Even with the most thorough of background checks (which cost money) renters can damage your property.
- **3. Insufficient funds.** Sometimes, the income from your renters is not enough to cover the expenses. Taxes, mortgage and insurance fees can sometimes exceed the amount you can charge your renters.
- **4. Legal ramifications.** If you have particularly challenging tenants and need the courts to get involved it could be a time consuming and costly process. ■

Chairman Ives recognized Scott Sullenberger from the audience. Mr. Sullenberger asked how many employees the town has. Mr. Sullenberger asked for information about co-pays and deductibles that the employees have on their medical insurance. Mr. Sullenberger said Aflac has been in business since 1956, it's designed to be a supplemental benefit to whatever is in place now for major medical health insurance to help with out of pocket expenses such as copays and deductibles. He explained that Aflac pays the policy holder cash they don't tell you how to spend the cash, they don't pay doctors and hospitals, they have payroll deduction, in order to establish a group rate they need three people with one plan each. He explained that three people would qualify for almost a 50% discount with the group rate. Mr. Sullenberger said he has been with Aflac for nine years and runs an Aflac brokerage firm so he brings a lot of support to his clients. Mr. Sullenberger discussed the various plans that are offered such as hospital, disability and cancer. He said he also offers New York Life Insurance. Selectman Krieger suggested that since nobody showed up tonight he would suggest that information be put in paychecks and individuals can contact Mr. Sullenberger directly. Selectman Krieger said if enough people showed interest he would suggest scheduling a group meeting. Mr. Sullenberger said that a client list is available on their website; clients include professional fire fighters, NH State Troopers, NH State Employees, and other towns. Selectman Krieger asked if elected officials can get it. Mr. Sullenberger said they would qualify. Mr. Sullenberger said that when working with municipalities he often goes to the individual departments and meets with them. The board said they don't have a problem with him doing that, they told Mr. Sullenberger to contact Brenda for department head information so he can contact them directly.

Chairman Ives recognized Ray Dumond from the audience. Mr. Dumond said he is representing Joanne Sanborn. He explained that they have a 48 acre parcel that they are trying to sell, he said it has 50-foot wide

driveway permit. Mr. Dumond said he discussed this with the fire department regarding 911 issues, shared driveways, address changes and access. He decided it would be better to make their driveway a class 6 road, name it, maintain it and use that as access to this lot. Chairman Ives said he has never approved a class 6 road, the only roads that have been approved are when a developer comes in, puts in a paved road to town standards. Mr. Dumond said at this point this is only one 48 acre lot, no room for a subdivision at this point. Chairman Ives said he can't see approving a class 6 road when there is other access to the lot. Selectman Krieger clarified that this class 6 road would go over someone else's property with an easement. Mr. Dumond said he has a letter from the property owner of the easement and he has no concerns. Selectman Bowles said it's not easy to get an equitable dimension waiver which they have and now don't want to use it instead they want a road in an easement. Chairman Ives said they have discussed it with the town attorney who recommends not doing it. Chairman Ives pointed out again that the lot has access. Mr. Dumond said that is correct. Selectman Krieger said he would like to get more information before making a decision.

Selectman Krieger moved to adjourn at 7:01 p.m. Seconded by Selectman Bowles. All in favor. Motion carried.

Chairman Ives recognized Iain Wilson from the Concord Monitor from the audience. Mr. Wilson explained that he is working on a story about the economic impact of the track. He said he is going to speak to a few of the businesses about it but he's wondering if there is any windfall for the town from the track or if the only thing the town gets is the property taxes. Selectman Bowles stated that the town gets their portion of what the state gets; the same as other cities and towns. He explained that the town doesn't get more money because they are the host town. Chairman Ives explained that the police officers and fire personnel get special duty pay so they make money those weekends. Mr. Wilson asked if the track hires special duty people, Chairman Ives explained that Chief Fiske hires the officers from all over the state. Selectman Krieger explained that the town then bills the track. Mr. Wilson asked if it's the same for the fire department. Chairman Ives said it is. Discussion ensued regarding businesses in town and how the race impacts them, Mr. Wilson said he will be out talking with them. The board explained that some business close down for the weekend because of the race traffic, some do well because of the traffic, some businesses rent vendor space, some residents have parking permits, the track allows organizations such as schools, and boy scouts to clean up and park cars for donations. Mr. Wilson asked how involved the town is with the traffic plan. Selectman Krieger explained that the state has many meeting throughout the year and Chief Fiske represents the town at those meetings. Mr. Wilson thanked the board for talking to him; he said he will be contacting Chief Fiske about traffic and businesses about the

# Planning Board Meeting Minutes — June 19, 2014

Meeting called to order at 7:00 p.m. by Vice Chairman Stan Prescott.

#### Attendance:

Vice Chairman Stan Prescott, George Saunderson, Henry Huntington, Bob Cole, Ex-Officio Dustin Bowles and Alternate Bob Ordway

Bob Ordway was appointed as a voting member in the absence of Tom Moore.

John Reese represented the Fire Department.

# **Acceptance of Minutes:**

May 15, 2014 Regular Meeting — Henry Huntington made a motion to approve the minutes as written; seconded by Bob Cole. All were in favor.

#### Discussion:

Joanne Sanborn — Ray Dumond spoke on behalf of Mrs. Sanborn. He presented a letter from Mr. Epp with regard to using the easement over his property as a road. Mr. Dumond stated that Chief Wright and Lieutenant Reese looked at the area for safety and access. He said the area of the 50' driveway to Mrs. Sanborn's vacant lot is totally cumbersome. They would like to create a road in through the Epp property/Mrs. Sanborn's driveway, making it a named Class VI road for access to Mrs. Sanborn's home and also to the vacant abutting lot. Lt. Reese said they walked the property and to do it according to 9-1-1 she would have to use the 50' driveway for the vacant lot or turn her driveway into a road. He explained that her house and a home on the vacant lot would be addressed off that road. It would not be a shared driveway, which 9-1-1 does not allow unless there is severe hazard and no other option. Dustin Bowles spoke about the history of the lots, which were supposed to be merged into one as directed on a building permit in 1990. He said town counsel has advised the Selectmen not to use the deeded right-of-way to access the vacant lot, use the lot's legal access. Stan Prescott said he feels some mistakes have been made and the best thing for Mrs. Sanborn to do is to meet with the Selectmen and the town's attorney as this matter is not in the Planning Board's jurisdiction. Dustin Bowles said it is his understanding if the vacant lot did not have its own frontage then access could be through the right-of-way; but the lot does have access so the attorney is saying that is the best way to go and get the matter cleaned up now. Mr. Dumond said the agreement 2½-3 years ago was for a 12' driveway, favoring Kathy Thibodeau's side of the property. He said that would involve dealing with a telephone pole and swampland. Mr. Dumond said you would not be able to get an emergency vehicle in with the pole there. He said this matter needs to be resolved. Stan Prescott said mistakes have been made, the Board of Selectmen is getting involved, and this is more than the Planning Board should be handling. Dustin Bowles said he will report back to the Selectmen and proceed from there. He said they will not be able to give Mr. Dumond an answer without further discussion with the Town's attorney; he will get back to Mr. Dumond about a meeting.

# **Conceptual Consultation:**

Mark Sargent for Plantier/Bohi — Mr. Sargent represented Mark Plantier and Joe Bohi, owners of Map 52, Lot 5 on Bumfagon Road. He explained that they are proposing to do a major subdivision of the 244 acre parcel, creating about thirty lots and a road network. He pointed out that the main access is in a major wetland; they are not sure of the wetland impact at this point but it would impact buffers. Mr. Sargent explained that his clients would like to phase the development, ten lots to start. He said in order to do that they would have to build a road that greatly exceeds road length regulations. The parcel is in the AFP District so each lot would require five acres and 400' of frontage. This would require 2500' of roadway. It was pointed out that most of the lots are bigger than five acres, six to seven acres being the typical size. There is a snowmobile trail where the main access would be located; they would work with the snowmobile club. All lots meet, most exceed, the buildable area requirements.

Board members reviewed the proposed layout and discussion ensued. Mr. Sargent explained that the need for a longer road is because of the frontage requirements. He pointed out that the first lots would have to be beyond the wetland by the main access point. Henry Huntington stated that the Board has allowed some pretty long deadend roads with no outlet options; this one would give them a second means for an outlet. Mr. Sargent noted that they would need this many lots to make the project feasible. George Saunderson suggested that the Board could make it a condition that the second phase would have to finish the loop back to Bumfagon Road before any other roads are built. Dustin Bowles asked if upgrades to Bumfagon will be required. Several members agreed that they should be. It was also noted that there would be a lot of added traffic at the intersection at Lower Ridge Road. This proposal will need to go to the Conservation Commission for review and input. When asked if detailed plans have been done, Mr. Sargent said they did not want to go too far if the road length was going to be a stumbling block. Bob Ordway said the town has a regulation on road length but where there is a continuation plan the Board could issue an opinion. He stated that he has no problem with the proposal; others agreed.

## New Business

Application #14-05, Whitney McGee — Minor Site Development/Daytime Parking Permit, Map 51, Lot 1. There were no abutters present. The Fire Department has

reviewed and approved the parking plan as presented with the application. Board members reviewed the location of the property and the parking layout for 78 spaces. Discussion included what is required for signage, portable toilet, and other permit rules. Bob Cole made a motion to approve the application as presented; seconded by Henry Huntington. All were in favor.

#### **Board Discussion:**

Voluntary Lot Merger — A merger form was received from Christopher Blakey for Map 58, Lots 44 and 45. The two parcels are across Berry Road from each other; the septic system is on Lot 44, the house is on Lot 45

Stan Prescott explained that the road is an easement and the properties go under the road. Board members were in agreement with the request to merge the two parcels; the form was signed and will be recorded at the registry.

*Cistern easements* — There was discussion about the need to include cistern easements on subdivision plans, complete with dimensions.

Memo from assessor — A memo was received from Dave Wiley with regard to a lot line adjustment and site development done by New England Flower Farms and Henry & Sharon Huntington. The memo pointed out the need for new deeds when a lot line adjustment is approved.

Veterans Drive inspection — Nobis Engineering submitted inspection reports on the paving and shoulders. Stan Prescott and Bob Cole stated that they have been in the area and the road looks good. The engineer noted one area of concern regarding a catch basin. Donna will send a follow up letter to Frank Merrill, with a copy of the report, to let him know the Board would like to see that matter addressed.

Geoff Smith email — A copy of an email from Mr. Smith to a realtor was received for the Board's information. Mr. Smith's concern is with the wording of real

estate listings for lots that abut his property, relative to the pond that he owns.

Parking permits — Donna reported that there are six permit holders who have not submitted the \$20 annual renewal fee; one of those also has not submitted their State driveway permit. Two reminder cards have been sent to each permit holder since the initial renewal letter went out. Board members asked Donna to send a letter to each one, with a date to hear back, and if no response is received the permit will be pulled.

Disturbed area fees — Donna informed the Board that a question on these fees was raised by John Zudell when the recent NHMS application was submitted. Donna gave an overview of fees paid on various projects at the track. Board members agreed that the fee is to be calculated on the full area of disturbance as 'finished' area. A letter will be sent to NHMS with this information.

#### Report of the ZBA:

There are three applications on this month's agenda: 1) Tina White for a kennel; 2) Kenneth Berwick for a reduced setback; and 3) Sthua Sliva for an appeal of an administrative decision.

## Report of the Board of Permit:

Stan Prescott reported that there was one Hawker and Peddler permit for the property next to the track.

He said there was also discussion about a property on Route 129 where pig houses have been built and farm equipment has been placed beside the road.

# Adjournment:

Bob Ordway made a motion to adjourn at 8:20 p.m.; seconded by Bob Cole. All were in favor.

#### **PUBLIC HEARING**

Application #Z14-06, Tina White/Carrie James — Special Exception for Dog Sitting/Kennel, RR District, Map 12, Lot 14 on Bee Hole Road. Abutter Kelly Benaway was present.

Ms. White explained that she and Ms. James board dogs from time to time, and they were told they had to see the ZBA by Chief Fiske. Ms. James stated that they have three of their own dogs; she does dog training at clients' homes. She said they would board one or two dogs at a time, no more than three overnight. Ms. James stated that she does have a three-dog family that asks for her services at times. She explained that the dogs are generally there for a couple of days at a time, none stay outside, and they are all in the home with the family. Someone is home when the boarded dogs are there; they are not unsupervised. Ms. James said they dog sit; it would not really be a full kennel but that seemed to be the best fit for application purposes. No grooming is done. The duration of stays varies depending on the client's needs; it varies from one night to one month, which is unusual.

Chairman Powelson went through the points of the application with Ms. James. He asked if there were any questions from the Board; hearing none, he asked if there were any abutters wishing to speak in favor of the application. Kelly Benaway said she lives across the street from the applicants. She said she was initially against the request but she now has a better understanding of what they want to do so she is okay with it. Ms. Benaway said she wanted to be sure it would not create a lot of traffic as the road is already very busy. Howard Pearl asked what about hours of pick up and drop off. Ms. James said it would not be before 7:00 a.m. or after 8:00 p.m. The chairman asked if there were any abutters wishing to speak against the application. A letter was received from Robert and Lisa Radcliffe. Chairman Powelson read the Radcliffe letter which asked that the application be denied. The Board reviewed pictures and a tax map that were submitted with the Radcliffe letter. Ms. James said the Radcliffe request would seem reasonable if the dogs were to be housed outside but they are not out there unsupervised. She explained they are not housing dogs outside; it is a play yard. She said they offer, on a small scale, a service that allows others' dogs to live in their home just like their own dogs.

Charlie Aznive asked about the definition of kennel. There were various responses/suggestions. Ned Lizotte asked to clarify if they are here because they run this as a business or a friendly service. Ms. James said the Code Enforcement Officer spoke with her and they felt this was the best fit for what they are doing. Mr. Lizotte asked if a

site walk is needed. Howard Pearl said since the Board has conflicting reports from abutters it might be good to take a look. Mr. Lizotte said that would allow the Board to get a feel for the proximity to abutters. Donna reported to the chairman that the owner of Map 12, Lot 16 was recently in the office to look at the application and plan; he was fine with the proposal.

A site visit was scheduled for Friday, June 27th at 5:00 p.m. Howard Pearl made a motion to continue this hearing to the site visit and then to the next meeting; seconded by Earl Tuson. All were in favor. The next meeting is scheduled for Thursday, July 24, 2014 at 7:00 p.m. in the Community Building. There will be no further notification.

Application #Z14-07, Kenneth Berwick Special Exception for Reduced Setback, RR District, Map 1, Lot 2 on Ricker Road. There were no abutters present. The applicant's son, Mike Berwick, presented the application. He explained that they want to add a 12' addition on the front of his father's house so he will have one-floor living. He pointed out that this is the smaller of the two dwellings there and is already in the setbacks. The Board reviewed a plan with the proposed addition. Chairman Powelson asked if there were any questions from the Board. Ned Lizotte stated that it seems straightforward. The chairman went through the points of the application with Mr. Berwick. There were no questions from the Board or the public. Roy Merrill moved to approve the application as submitted for a 10' reduction of the side setback; seconded by Howard Pearl. A roll vote was taken: Howard Pearl - yes; Roy Merrill - yes; Dave Powelson - yes; Ned Lizotte - yes; Earl Tuson – yes. Unanimous – PASSED.

Application #Z14-08, Sthua & Colleen Sliva — Appeal of an Administrative Decision, RR District, Map 12, Lot 3 on Bee Hole Road. The applicants and their attorney, Diane Puckhaber, were present. Also present were abutters Brian and Michelle Clark.

Attorney Puckhaber explained that a cease and desist order was issued by the code enforcement officer. She gave a brief history of the property saying there was initially a cellar hole and then a home was built in 1980. She said this is a residential property but Mr. Sliva has had an automotive repair business there since before zoning. Ms. Puckhaber said the complaint is that there was a new addition to the business. She said this is not new as there was an existing foundation and cement walls there with Tyvek. Mr. Sliva said the structure was started in 1984; it has been a long time completing it. The Board reviewed an aerial photo taken in 1998 which showed the foundation was there at that time. Mr. Sliva stated that the foundation was done in 1992/93. Steve Rutherford said he poured the cement and that was done 15-20 years ago. Mrs. Sliva helped orient the Board

members on the photo as compared to the sketch that was submitted with the application. Howard Pearl asked when the area was covered. Mr. Sliva said it was done within the last couple of years. He said he also did a lean-to to cover a camper. Roy Merrill said part of the complaint is that there is a camper there with people staying in it. Diane Puckhaber stated that the camper has been there for 20+ years. It was previously protected with tarps then Mr. Sliva added a roof to protect the camper. Amy Tuttle stated that she stays there in the camper. Mr. Sliva noted that there have been different campers there over the years. Dave Powelson said the camper does not show in the 1998 photo. Mrs. Sliva pointed out on the photo where it would be. Board members reviewed the building sketch with Mr. Sliva.

Roy Merrill and Howard Pearl reviewed the regulations for camping/campers. Charlie Aznive clarified dates of the foundation and reviewed the complaints listed on the cease and desist order. Roy Merrill said it would seem that none of the buildings/ issues came prior to zoning. Dave Powelson read Section 801.1 of the Zoning Ordinance, relative to building permits being required. Ms. Puckhaber referred to the section referencing less than ten feet in height and occupies less than one hundred square feet of ground area. Chairman Powelson asked if the area is less than 100 SF. It was noted that the sketch lists the area as 936 SF. There was discussion on building permits, adding on, dates of the original building, and how using the 936 SF area differently now than before the roof.

The Board reviewed the four separate complaints on the cease and desist order. The chairman asked if there were any abutters wishing to speak in favor of or against the application. Brian and Michelle Clark said they are the only neighbors that can actually see the area as they have a direct line of sight. They stated that they have no issue with the situation.

It was agreed that a site visit is needed. The visit was scheduled for Friday, June 27th at 5:30 p.m. Howard Pearl made a motion to continue the hearing to the site walk on Friday and then to the next meeting; seconded by Ned Lizotte. All were in favor. The next meeting is scheduled for Thursday, July 24, 2014 at 7:00 p.m. in the Community Building. There will be no further notification. Howard Pearl said he would very much like Bob Fiske present at the site walk as he is the one most familiar with the complaints and compliance matters.

## ADJOURNMENT

Howard Pearl made a motion to adjourn the meeting at 8:19 p.m.; seconded by Roy Merrill. All were in favor.
